Subject: Interim Final Parcel G FOST
Importance: High

Dear BCT Members:

Attached is an interim FINAL PARCEL G FOST in electronic form.

With my departure, I wanted to loop everyone back around to where we have been and where we are at with the Parcel G FOST:

As of February 27, 2015, all agency comments were adequately addressed (see attached emails). And for all intensive purposes, the Parcel G FOST language is now final. However, the Navy must resolve the alpha scan issue at Parcel G to the satisfaction of the FFA signatories before the BRAC EV Director, Mr. Lawrence Lansdale, will sign the FOST.

Upon resolution of the alpha scan speed issue, the Navy will put in a final document date and insert reference to any documentation resolving the alpha scan speed issue (as deemed necessary). The Navy will then request the agency concurrence letters.

Ms. Becky Cardoso (cc'd) will be the Navy POC going forward.

Thank you all very much for all the hard work in getting this finalized and I hope it is signed by the time I get back from my time overseas :-)

Kind regards,

Catherine Haran, PE
